INSIDE LOOK : JOINERY & STAINLESS STEEL

Open Projects Group are industry leaders in the business of transforming hospitality spaces.

Our exceptional fitouts are created in-house so we have total control of your project.

On the Gold Coast our Joinery and Stainless Steel workshops occupy over 1,000m² of floorspace. Our qualified tradespeople create custom cabinetry and joinery at our own factory. Because we handle all facets of our projects in-house our processes are much more efficient and time-effective to the client.

Our full-service factory handles carpentry, cabinetry and joinery including paint and finishes in a vast selection of materials such as timbers, laminates, acrylics, steel and copper. We pre-assemble and double-check all components to ensure your install is trouble-free.

Our expertise in fabrication allows us to custom design and build a variety of stainless steel and metal work solutions. Working in conjunction with our Joinery and Equipment divisions through co-ordinated production ensures for a seamless installation and integration into your venue.

PROJECT SPOTLIGHT : RAMEN DANBO

Recently we completed Ramen Danbo noodle bar and restaurant in Southport. Ramen Danbo is the first venue in Australia of one of the largest Ramen noodle chains in Japan.

It is an authentic Asian restaurant which has been captured in the design, construction and shopfit by Open Projects Group. The functional design incorporates a mix of earthy timber laminates and seeks to replicate the original Danbo Ramen shop which was opened in 2000 on the island of Kyushu, Japan.

Emphasis was made on functional kitchen design and equipment selection with the open-to-view kitchen engaging customers whilst maximising the full use of the space and work flow. The kitchen features teppanyaki, wok and boiling plates as well as strategic food preparation and storage space. Equipment sourced from Goldstein and Hoshizaki ranges. Talk to us about your project requirements. Finance options available.

NEW SHOWROOM ON THE GOLD COAST

Our newly renovated Gold Coast showroom is designed to showcase our design and build capabilities via a variety of on-trend finishes. Recycled is a strong design trend and Open Projects Group has a dedicated division to source amazing recycled materials to integrate into your new project. The latest trend of recycled timbers and materials is embraced as functional design in our venues and it creates a memorable atmosphere with wow factor.

Our extensive commercial equipment range is available in our new showroom with a huge range of equipment and appliances featuring all the major brands. Our hospitality experienced staff will guide you on the latest offerings available to suit your business and budget. Finance options also available.

Our showroom features a fully-functioning commercial kitchen for commercial cooking demonstration or to train your chefs whilst your venue construction is underway.

Drop in for a coffee and a chat with one of our friendly and knowledgeable team members.

PROJECT SPOTLIGHT: ICON TRAINING ACADEMY

The Gold Coast's largest hospitality training organisation, Icon Training Academy has relocated to the newly developed The Kitchens precinct at Robina Town Centre.

Open Projects Group provided the complete solutions for this outstanding new venue from design, equipment supply and shopfitting. The space features a modern industrial design incorporating a mix of solid timbers and blended timber-toned laminates, stainless steel surfaces and handcrafted feature lighting panels in an exposed ceiling. Custom created feature dining table and kitchen workstations are outstanding elements.

A functional student training space was core to the brief and includes a range of high-standard hospitality equipment from brands including Electrolux, Culinaire, Cooktek and Simply Stainless.

PROJECT SPOTLIGHT : MACKAY SHOWGROUNDS

Open Projects Group managed the refurbishment of several existing hospitality spaces at Mackay Showgrounds which resulted in new commercial kitchen areas suitable for a variety of function capabilities.

The new spaces will now be able to cater for high volume catering and large events and were transformed with custom stainless steel surfaces, mechanical ventilation, commercial kitchen equipment supply and design and construction of multiple bar areas. Equipment from the Luus and Unox ranges were chosen for their suitability.

Featured Equipment:
